About This Content

During one of his recon missions, Sentry infiltrated the commercial space ship Nostrilmo disguised as a lamppost. However, all members of the human crew had already perished in a fierce battle against a powerful Xenomorphic being.

In its wake, the being had left a gross pulsating egg and when he uncovered it Sentry realized that he had finally found a way to overcome the last limitation in his abilities: to mimic biological beings. Sentry quickly imprinted his consciousness on the embryonic alien within the egg.

Years later, the Nostrilmo crashed into the Starstorm station and unleashed a never-before-seen horror upon the Awesomenauts!

This DLC contains a custom skin for Sentry X-58 in Awesomenauts. You need to have Sentry X-58 available as a playable character in order to access the skin in-game. Owning this skin will also unlock the special portrait for use in-game. This skin contains a fully customized voice set!
