About This Content

Greetings, BEST FRIENDS. The Tywom - and other exciting alien species from the Star Control®: Origins™ universe - have come to Galactic Civilizations III! Each alien race brings a new depth of play with unique leaders, ship designs, traits, music and more.

The Star Control Heroes DLC pack introduces the Tywom, Mowlings, Mu'Kay, and Free Trandals into Galactic Civilizations III. All of the new major alien factions come equipped with a unique leader, ship designs, music, and traits that make sense for that race.

Here are the new races you'll be able to play with in Star Control: Heroes:

Major Factions

- Tywom - Hello, best friends! These yellow slug-like aliens would like a hug. They're slimy, and you don't want to give them one, but still - it's all they really want. The Tywom want to be friends with everyone, which makes them great diplomats, and their constant desire for approval gives them a bonus for any other factions who happen to love them.
- Mowlings - All hail the mighty Jeff! The Mowlings are small, bear-like creatures who worship a mysterious deity they call Jeff. Frankly, they're a little lost without him, so they spend their time finding new ways to worship him. The Mowlings get a special Temple of Jeff improvement (one per planet) that grants bonuses to influence and approval, and in return Jeff orbits their planets protectively.

-
- Mu'Kay - Greetings, federation member! Founders of the Federation for Allied Species, the Mu'Kay are intelligent cephalopods who live entirely in aquatic environments. Their natural intelligence makes them excellent researchers, and their polite (if occasionally condescending) manner lends itself well to diplomacy. Unless you're a fish. Then prepare to be eaten.
 - Free Trandals - Cast off the shackles! The Free Trandals are the escaped faction of a race that has been enslaved by a malevolent AI known only as Overmind, who uses their bodies to advance its own nefarious purposes. Now, the Free Trandals work to free their brethren and rebuild their lost culture with what little they have left. Possessing a surprising capability (and healthy paranoia) for advanced technology, the Free Trandals are far from helpless both on and off the battlefield. Their warrior instincts may be long buried, but their ships, while few in number, are enormously effective against silicon and synthetic based life forms.

Features

- 4 new major factions with unique leaders, ship designs, music, and traits
- Dozens of new ship parts inspired by [Star Control: Origins](#) for building and modifying your own ships
- Several new music tracks from Star Control: Origins
- New faction traits: Needy, Divine Guardian, Unshackled, Federation
- New ship designs, colors, and styles

The Seagrave's Fang

If you choose to use these NPCs as a friendly or rival crew, they can serve as the officers of the *Seagrave's Fang*, a two-masted brigantine with dark gray sails, the foremast fully square-rigged and mainmast rigged with both a fore-and-aft mainmast, square topsails, and topgallant sails. Just under 90 feet long and 25 feet wide, the *Fang's* armament consists of two pairs of side-mounted ballista, one pair mounted on the foredeck and the other on the sterncastle. Jutting out below the *Fang's* bowsprit is a long jagged wooden carving of a sharktooth. When flying the ship's true colors, the *Fang* displays a golden symbol of crowned skull with crosscrossed curved blades on a black background.

In game terms, the *Seagrave's Fang* is a sailing ship, as described in the *Player's Guide for the Pirate Adventure Path*, with the following improvements: broad rudder, narrow hull, and one smuggling compartment in the captain's cabin. Currently only the captain knows this smuggling compartment exists.

Pilot Hooks

One of the ship's crew stole a sacred shark idol while in port. The idol can grant lycanthropy to the bearer and the school of weresharks the idol belongs to want it back at any cost.

While searching for buried treasure, the *Seagrave's Fang* discovered a desert island where a wereshark tribe lairs. The *Fang* fled from the island, but the weresharks are stalking the ship and have already picked off several of the crew.

The leader of a wereshark pack has become enamored with the captain of the *Seagrave's Fang*. The leader intends to infect her with lycanthropy and transform her into a fitting wereshark consort, but only after the pack has killed and devoured all of her crew.

Captain Valenya Thale

Art: Valenya

Attired in an elegant jacket, white silk shirt, black pants, and thigh length leather boots, this commanding piratical woman boldly wields a curved concave blade. Stylish jewelry tastefully accents her eye-catching appearance.

Whether the farfetched tales of Valenya being the lost heir to one of the empire's highest noble houses and the tragic circumstances that led to her becoming a pirate are true or not, Valenya Thale certainly displays the demeanor of an aristocrat. She remains impeccably attired even when boarding an enemy vessel, and deals fairly with those who surrender to her, often offering warm hospitality to upper class prisoners. Valenya is no fool however, she is extremely skilled the arts of subterfuge and trickery, and those who attempt to take advantage of her seemingly genteel nature usually find themselves falling into one of her well-laid traps. Valenya also runs a tight ship, and those who misbehave or attempt to challenge her find that beneath Valenya's refined demeanor is a ruthlessly fierce individual more than willing to make good on the dire threats she issues when roused to anger.

Valenya came into a substantial amount of gold early in her piratical career, which gave her the opportunity to obtain and refit a decent ship. She has changed ships several times since then, having a ship sunk underneath her in a fierce battle but also capturing several vessels and refitting them. Once Valenya even lost her ship in a high stakes dice game and then, after an incredible run of astonishingly good luck, won an even finer ship, all in the same night of gambling.

Valenya learnt the many of the subtle intricacies of art of fighting with the falchion from a noble duelist who she captured during a daring raid on an imperial galleon. She offered the noble the chance to ransom himself in return for teaching her how to fence with the curved blade. Valenya kept her word and once she could best the duelist, she released him in a neutral port with a tidy purse of gold to see him return home. This courtesy, however, has done nothing to reduce the hefty reward offered in the empire for Valenya's capture.

There are rumors that Valenya is secretly away a trove of the treasures she has plundered. Although whether she stores this booty onboard ship or on one of the many islands she visits is anyone's guess. Some say that she intends to build up enough wealth and then attempt to buy an imperial pardon, but this is pure conjecture.

WARNING DO NOT BUY!!! I HAVE STILL YET TO PLAY THIS AND HAVE HAD IT FOR MONTHS

DO NOT BUY!!! YOU HAVE BEEN WARNED!!. Nice job! This is the best VR shooter I've tried before!

So intense and the graphics is amazing.

3rd level was too hard, but maybe it's just me.

Worth a price.

Definitely keeping it and looking forward for the next update. Nice game!

-> Awesome artworks

-> Intuitive gamepad controls

-> Little to short but great fun.

I can recommend this game! Hope will be some DLC in future :). I'm going to keep this short and just say that an already great space 4x RTS game has been made several times greater by this expansion.

Two new races, new techs, revamped research tree and overall improvement in pretty much every area make this a no-brainer.

If you own the game, get this expansion, there is **NOTHING** to regret. If you don't own the game, get it and the expansion together and tell your friends about this awesome 4x that far too few people know exists.

Its games like this that are worth supporting way above the AAA publisher titles. A 3-man dev team made something truly amazing.. Is this game plastic? No, I dont need that. Just take that out.. I think I lost my remaining brain cells for this. I think this is better than the Cuphead tutorial.

Mostly just for cards.. Good game !!!

10/10. Fun, short little puzzler game, with an interesting Myst D'ni-esque language and a free-but-pay-if-you-want-to-and-would-like-etc-goodies business model. Very much worth the little bit of your time it takes to complete.. **While *One Ship Two Ship Redshift Blueshift* is well made and highly polished, it is woefully too simple for modern indie gaming - and certainly too simple for that nine dollar price tag. Even at under a buck, I feel I overpaid considering it's a 90% off sale.**

It's just two paddles cranking a ball back and forth. There is a gun you can use, but it doesn't really add any layers of complexity or anything interesting.

Pros:

- +*The program as a whole-package is well developed*
- +*The art and music are great*
- +*The controls were as tight as I'd expect*

Cons:

- The game mechanic is not nearly enough for a game to stand on in this day and age*

*Go for **Leathal League**, trust me on this. It's the same principal with a modernized vision.. 10\10, highly recommend! This game brought me right back to goofing off on flash game websites in the computer lab of my middle school. Expect silly dialogue, typos, small bugs, repetitive combat, and missing attacks constantly even though your hit chance is like 80%.*

Definitely purchase this game!

Check out some gameplay here -

<https://youtu.be/UFRG5tCNygc>. A fun game, reminiscent of old text adventure games - very nicely done. I loved the buy the DLC and it stays in your library mode. Wish more FTP games would do that.
